

K-113

WASHI PAPER MASKING TAPE

APPLICATIONS

A premium orange washi paper coated with a modified acrylic based adhesive system. Designed for high performance paint masking applications in the transportation, marine, and general industrial markets that require sharp, crisp paint lines. Waterproof washi paper and solvent resistant. Excellent for use with solvent and water-based paints and lacquers. Highly conformable with easy removal and no adhesive residue with a temperature range of up to 266°F. Ideal for indoor and outdoor applications.

FEATURES/BENEFITS

- Conformable, waterproof washi paper provides clean, sharp paint lines and paint flaking resistance.
- Excellent water and solvent resistance. 14 day UV resistance.
- Good temperature stability for clean removal after extended periods.
- Engineered for smooth application and easy removal from a variety of surfaces.
- Available on a paper release liner for custom die cut shapes or sheets for spot masking.

TECHNICAL DATA

Adhesive	: Acrylic
Backing	: Washi Paper
Color	: Orange
Tape Thickness	: 3.4 mils
Tensile Strength	: 17 lbs/in width
Adhesion to Steel	: 14 oz/in width
Elongation	: 9%
Temperature Range	: 40°F to 266°F

Note: The above are typical values obtained from tests recommended by the PSTC, ASTM, or government agencies and should not be used in writing specifications. The product should be thoroughly evaluated by the user under actual conditions with intended substrates to determine if the product is suitable for the application.
